*Providing innovations and cutting-edge technology solutions to honey consumption process. Expert in **tasting honey, eating honey, and sleeping**. Passionate about **honey genres and stomach capacity**. Willing to relocate. Looking forward to facing new challenges at International Honey Factories in Beijing, China as a CEO.*

SKILLS

Programming: Tasting · Eating · Consuming · Smeling ·

Hardware: Jar opening · Food boxes disassembling · Dishes preparing ·

Other: Honey end-to-end testing · Honey-to-mouth automation · Food goal-driven ·

Languages: Toy's (native) · Human English (full professional proficiency) · Bee's (intermediate proficiency)

EXPERIENCE

Ashdown Honey Factories, Inc. | CTO

10/1954–ongoing

- Directly controlling honey production and sales for the Central Europe market.
- Optimized and increased production quality by 30% in 1963 by introducing 10 key performance indicators which resulted in \$2B income.
- Reduced production costs by 50% by adjusting bee colonies headcount.

Christopher's Fridge | Quality Assurance Engineer

04/1947–09/1954

- Tasted over 400 jars of worldwide honey.
- Sorted all honey by taste, reported to Christopher what he should buy next.
- Kept honey from crystalizing by reacting accordingly and consuming it ASAP.
